Re: Gateway 441 & 27 Project

The Leesburg Partnership is very excited to have been a part the city's Gateway 441 and 27 project. The new gateway creates a visually inviting entrance to our city. This is in line with our own mission statement of design and vision for our growing Main Street Redevelopment program.

The City of Leesburg has our full support in this endeavor. We look forward to continued partnerships that will enhance our city.

Sincerely,

Joe Shipes, CEO
