2018 ANNUAL CONFERENCE

October 24-26, 2018 ■ Sanibel Harbour Marriott Resort

www.redevelopment.net

LETTER FROM THE PRESIDENT

Brenna Durden
2017-18 FRA President

Dear Conference Attendees:

Welcome to the 2018 FRA Annual Conference!

On behalf of the entire Board of Directors, I want to thank you for attending this year's conference. I am certain you will find the program filled with topics that are both informative and relevant to your own hometowns. Thank you also to the many wonderful sponsors and exhibitors. Your support and partnership with FRA help to make the Annual Conference the "go-to" conference every year for the redevelopment community. Thanks also to the many speakers who volunteer their valuable time and so generously share their knowledge and insight with all of us! Finally, thank you to this year's Conference Committee, with special thanks to Gail Hamilton, this year's Conference Chair.

The past year was extremely busy for the FRA Board. Challenges to the statutory authority for CRAs was one of several focuses of the Florida Legislature in the last legislative session. Many of you responded to the Board's "calls to action" to help stem the tide of several bills that could have damaged redevelopment efforts in Florida. With your help and with the support of the Florida League of Cities and our legislative affairs team, these bills were not adopted. We know challenges lie ahead, and your Board remains prepared, but your voices will again make the difference.

It has been a distinct honor to serve on the Florida Redevelopment Association Board – first as a regional representative many years ago, and then as a full Board member since 2010. My year as president has flown by. I am grateful to each Board member and to all of the Committee members who are the real strength of the FRA. My deepest appreciation goes to Carol Westmoreland and Jan Piland, whose guidance year after year has made all the difference in FRA's success. Thank for the opportunity to work with all of you.

A handwritten signature in black ink that reads "Brenna M. Durden".

Brenna M. Durden
FRA President

Getting Your Redevelopment Project Funded in the Underserved Community

2:15 p.m. - 3:15 p.m.

Camellia AB

The goal of this forum is to provide examples of why it's important to be engaged in the local government budgeting process. How to plug into the process, as a stakeholder, and how to get your projects funded will be discussed. Local decisions are made based on funding, but a lot of times it's also based on public participation. So, we need to make sure the residents are focused on the funding and not rely on just having a seat at the table. Our “Diversity Session” will continue the discussion, when you can also actively engage.

How does a CRA deal with bond issues, financial controls, cost allocation, valuation of assets, lines of credit and loans, city property transfers and audits, and how can you as a practitioner be ready for any of these issues if they arise? This session is designed to be full of answers to these and other questions.

COMMUNITY REDEVELOPMENT AGENCIES

Community redevelopment agencies (CRAs) are incredibly successful tools for breathing new life into communities that have been neglected or forgotten. Their purpose is to eradicate physical blight in its many forms – through local leadership and a publicly vetted redevelopment plan. There are no state or federal monies spent by CRAs. Revenues used by CRAs come from **FUTURE** property value increases in the area – called “increment” because they are incremental increases in value, from year to year.

The redevelopment plan is created by the community and implemented according to that public plan. CRAs are uniquely designed to address our citizens’ specific needs for revitalization. The steady rebirth of a neighborhood, commercial area or community is guided by the citizens of the area through the CRA plan, budget and hearings.

Further, CRAs are **TRANSPARENT**. There are several annual CRA reports required by state law, including independent audits.

While a CRA nurses an area back to health through a strategic blend of redevelopment initiatives, it provides the building blocks for other stakeholders to join in the process. The end result, at the end of the CRA term, is a more vibrant, livable and healthy community for all its citizens. The economy is better, businesses are supported, public areas are safe and clean, and it is a place where people want to take out-of-town guests when they visit.

The **Florida Redevelopment Association (FRA)** looks forward to working with any interested parties to provide information on CRA legal practices, challenges and successes. We are continuously educating members (and anyone interested in community redevelopment) through the academy course and professional certification program, workshops, annual conferences and webinars offering best practices and expert advice. You may visit www.redevelopment.net for more information on how we serve our members and the exceptional work CRAs are doing in Florida.

KEY FACTS:

- » Redevelopment efforts are key to revitalizing housing and commercial areas.
- » Redevelopment supports vital community assets identified by the local community.
- » CRAs are a recurring funding source for infrastructure, crime prevention and business growth.
