

PUBLIC ART INFUSION AND CITY BEAUTIFICATION

Riviera Beach Community Redevelopment Agency

In 2018, the Community Redevelopment Agency was given approval to begin the installation of several murals throughout the CRA District. After conducting several workshops to get input from stakeholders, residents, and staff, plans were drawn up to complete the murals in the CRA District. These murals represented the unique diversity of the City of Riviera Beach.

BEFORE

The Public Art and City Beautification revolution was created at our award winning Riviera Beach Marina to bring life to the water tower and the wall located directly in front of the water tower.

AFTER

- The water tower mural was named, “**The Aquarium.**” It depicts sea life surrounding the City of Riviera Beach including, manatees, tropical fish, and divers.
- **The Calypso**, is the mural located on the wall directly in front of the water tower.
- The Calypso takes its inspiration from the African American and Caribbean culture, which was an essential ingredient to the development of the aquatic industries.

The intersection of Broadway and Blue Heron Boulevard which is the gateway to the city, was part of the beautification program that includes a beautiful pocket park. The second phase includes a mural on the building facing Blue Heron Boulevard.

The **Snorkeling Trail** mural was inspired to show different species of sea life found in the Lake Worth Lagoon and the Phil Foster Park snorkeling trail, an international destination famous for its exotic marine life species.

Children enjoying the beach

The Mural program is a game changer for Riviera Beach. By investing in public art, we are investing in the culture of the city. There is a rich culture that is largely ignored. With its bright colors, real life depictions and creativity, the murals are the quintessential representation of the City of Riviera Beach.

The murals have proven to be a powerful tool for generating dialogue, pride, empowering communities, and sparking more economic development within the city. These stunning murals adorn several areas within the CRA district and can be seen as you stroll or ride through the city. The murals have brought a beautiful facelift to the city and we look forward to expanding this exciting program!
