

## Lauderdale Lakes Community Redevelopment Agency

### Northwest 31 Avenue Corridor Improvement Project

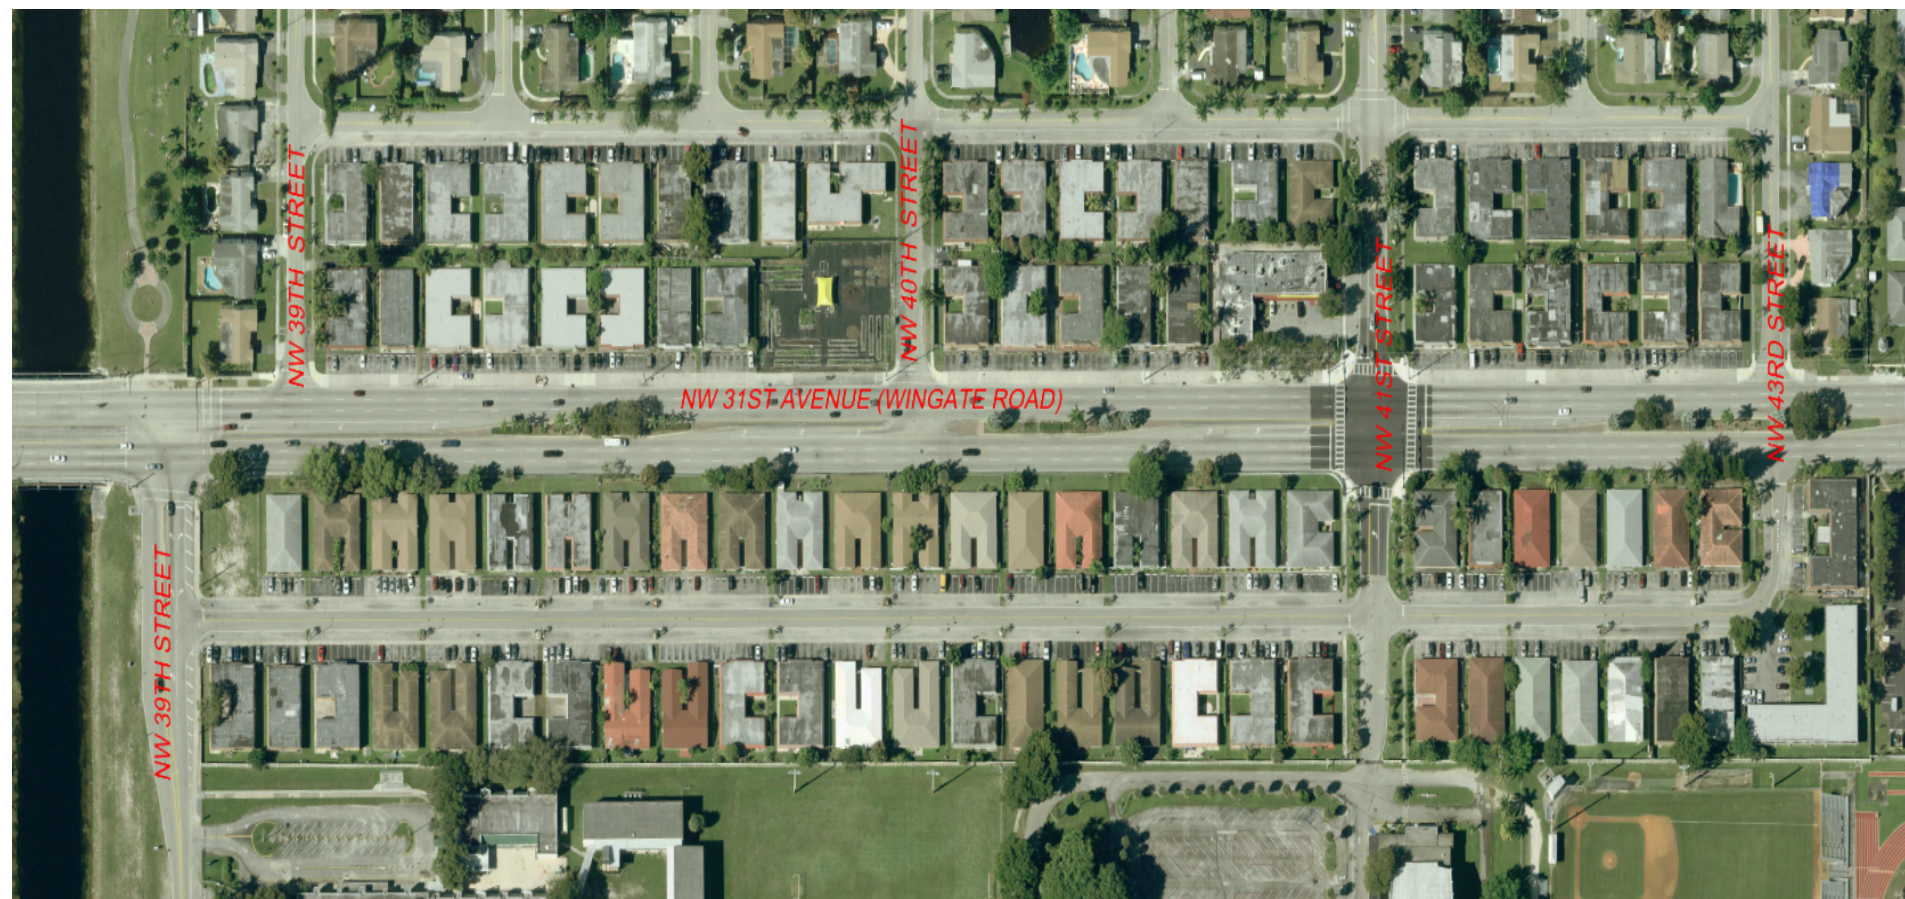

---

Lauderdale Lakes Community Redevelopment Agency

# Northwest 31 Avenue Corridor Improvement Project

The NW 31 Avenue Corridor has been part of community planning initiatives for over a decade. This road is surrounded by schools, multi-family homes, park facilities and greenway trails that generate high pedestrian and vehicular traffic.

# Northwest 31 Avenue Corridor Improvement Project

At various interactive public outreach meetings, maps and illustrative renderings have been utilized to assess roadway conditions, address public concerns and develop strategies to revitalize NW 31 Avenue.

## Assessment of Roadway Conditions

No Sidewalk/Bicycle Lane

No Street Lights

Ponding/Curbing Issues

Minimal Landscaping

# Northwest 31 Avenue Corridor Improvement Project

Through a successful collaboration with several agencies, the Northwest 31 Corridor Improvement Project addresses a ¼ of a mile roadway issues that impact a regional roadway network. The transformation of NW 31 Avenue is illustrated below. (Before and After)

- Project Construction Cost: Over \$1.4 million
- Project Improvements: New sidewalk, bicycle lane, lighting, pavement markings, upgraded pedestrian facilities and landscaping
- Organizations: Broward County, Florida Department of Transportation, State of Florida, McMahon Associates, Continental Construction USA, LLC
