The chart displays two data series over a 22-day period in February 2020. The x-axis represents dates from Feb 1 to Feb 22. The y-axis represents the number of cases, with a scale from 0 to 100,000,000. The blue line, representing the total number of cases, remains relatively flat until around February 19, where it begins a sharp ascent, reaching a peak of approximately 80,000,000 cases on February 21, before declining to about 60,000,000 by February 22. The green line, representing the number of new cases, also starts around February 19 and shows a steady, gradual increase, reaching approximately 10,000,000 cases by February 22.

Date	Total Cases (Blue Line)	New Cases (Green Line)
Feb 1	~0	~0
Feb 4	~0	~0
Feb 7	~0	~0
Feb 10	~0	~0
Feb 13	~0	~0
Feb 16	~0	~0
Feb 19	~10,000,000	~1,000,000
Feb 21	~80,000,000	~5,000,000

The chart displays two data series over a 22-day period in February 2020. The x-axis represents dates from Feb 1 to Feb 22. The y-axis represents the number of cases, with a grid extending to 100. The blue line, representing total cases, remains at zero until approximately Feb 19, where it begins a sharp ascent, reaching a peak of about 95 cases on Feb 21, before dropping to around 40 cases by Feb 22. The green line, representing a subset of cases, also starts around Feb 19 and shows a more gradual, steady increase, reaching approximately 15 cases by Feb 22.
