Scope of Services

The City of Crescent City proposes to reestablish a schedule of impact fees referenced in Chapter 2, Section 2.5 of the Code of Ordinances, and accordingly update the Capital Improvements Element (CIE) of the City's Comprehensive Plan. The Commission had established a moratorium on impact fees in 2013 and wishes to reestablish the fee schedule at this time. The impact fees to be considered are Transportation, Water, Sewer, Parks, Fire and Law Enforcement.

The proposed project has six tasks that will provide data for analyses, confirm the methodology to be used to bring impact fees up to date, update the Capital Improvements Element of the Comprehensive Plan, adopt the updated impact fee schedule, implement the updated impact fee schedule and provide continuing services.

The selected consultant will include advice and assistance to the City of Crescent City in general on impact fee matters, the preparation of an Impact Fee Methodology Report (including all impact fee calculations), preparation of a Capital Improvements Element, the preparation of a final impact fee schedule for adoption, preparation of an Impact Fee Ordinance conforming to all current state law requirements, and assistance to staff in implementing the program.

The consultant will consider the existing and proposed amounts of impact fees for the City of Crescent City for the following public facility categories:

- Roads, streets, and bridges, including rights of way, traffic signals, landscaping, and any local components of state or federal highways;
- Water treatment and distribution facilities;
- Sewer treatment and collection facilities;
- Parks, open space, and recreation areas and related facilities;
- Public safety facilities relating to law enforcement; and
- Public Safety facilities relating to fire facilities.

The result of the services will be the update and adoption of an impact fee schedule for Crescent City meeting all legal and administrative requirements. In addition, the CIE will conform to Florida requirements for inclusion in the City's Comprehensive Plan.

The services will include the following items:

Task 1: Project Kick-Off

Task 1.1: Data Collection

The first phase of the project will involve study organization with the staff and data collection. Immediately upon contract execution, the Consultant will work with City staff to schedule joint or

back-to-back meetings with key City staff members. At initial meetings, the Consultant will gather available information related to the project; identify major policy issues involved in updating a Crescent City impact fee program; and coordinate staff and Consultant responsibilities. The Consultants will obtain copies of all relevant plans, studies, data and documents needed to perform the scope of work.

Data to be gathered include, but are not limited to:

- Existing population, housing and employment forecasts for the city to the year 2045.
- The latest annual number of Occupational Tax (i.e., “business licenses) employment statistics by each range category.
- Property tax assessment totals by land use category.
- Inventories of all existing impact fee eligible community facilities.
- A list of currently proposed new or expanded facilities for which funding has already been identified or programmed, and method of funding (such as Grants, Bonds, General Fund, etc.).
- Debt payment schedules for outstanding bond issues or loans relating to identified facilities, if any; other capital improvement projects programmed and method of payment.
- A prioritized list of projects planned or envisioned by the City but not yet funded for each facility category, including estimated costs and start dates.
- Average values for new construction: Single-family homes, multi-family units and nonresidential buildings.

Budgeted capital projects, adopted Capital Improvement Plan project listings and departmental service plans/projections will be key inputs for the impact fee eligible project listings.

All current cost estimates will be converted to Net Present Value (NPV) by the Consultant using average annual inflation rates (the CPI and Engineering News Record’s BCI and CCI for building and other construction projects), discounted by the City’s current investment interest rate.

Deliverables:

- Meeting with all affected departments regarding project overview, data needs, planned capital projects, status, etc.

Task 2: Impact Fee Methodology Report

The preparation of an Impact Fee Methodology Report addressing each of the City’s impact fee eligible public facility categories listed above, including calculations of the maximum impact fees for each impact fee category. The Report will reflect the following:

Population, Dwelling Unit and Employment Forecasts to 2045

Socioeconomic forecasts will be prepared for the city as a whole. The results will be presented in a Technical Appendix containing all pertinent calculations.

Tax Digest Forecasts

These will be needed to calculate credits for new development property taxes attributable to impact fee projects, and will reflect average new house sales prices and per-employee nonresidential property values. The calculation of a credit against impact fees as needed to avoid potential situations of double taxation.

Level of Service (LOS) Standards

The current LOS will be calculated for law enforcement services and fire protection based on existing facilities and the pertinent day-night population served. The LOS for parks and recreation will be based on the City's past and planned improvements for an investment recoupment approach. The LOS for water and sewer services will be based on best available data for usage rates among types of construction. LOS standards for roads will be based on a comparison of traffic currently generated by existing development and the traffic generated by new growth and development in 2045.

Determination of the LOS standards to use—current, future or other—will be a function of City policies and the most advantageous impact fee calculations themselves. The Consultant will be guided by principle that impact fees will be collected throughout the city and that facilities will be available to all residents even though some facilities may well be focused on particular areas (such as neighborhood playgrounds operated by the City).

Funding Mechanisms

Funding vehicles in place, including funding from the General Fund, Better Place Funding (1 cent sales tax), Utility Funds and from other sources (such as grants, bonds or short-term financing vehicles).

Maximum Impact Fees

The maximum potential impact fee for each land use category is calculated to set the ceiling on fees that can be charged under state law. The actual fees to be charged will be decided by the City Commission as part of the Impact Fee Ordinance preparation process.

Deliverables:

- Methodology Report containing all forecasts, credit data and NPV components, impact fee calculations for each public facility category, a maximum fee schedule by land use category, and an Executive Summary regarding the financial implications of adopting the impact fee program. Pertinent Technical Appendices will be attached.
- The document will be delivered in digital (PDF) format for reproduction and digital distribution to the appropriate parties by the City staff.
- Briefing Paper summarizing the Methodology Report for public and City Commission presentation.
- Attendance at one City Commission meeting to review and present the draft Methodology Report, which then will be finalized reflecting City Commission comments.

Task 3: Capital Improvements Element

A draft Capital Improvements Element (CIE) based on the finalized Methodology Report will be prepared. The CIE document will be drawn from those portions of the Methodology Report (with supplemental text added) that are required to be included by the Florida Department of Economic Opportunity.

Impact fee projects will be included in the 5-Year Community Work Program that will be added as a part of the CIE.

The document will be delivered in digital (PDF) format for reproduction and digital distribution to the appropriate parties by City staff.

Following presentation of the Draft CIE to staff, the Consultant will facilitate a public hearing before the City Commission to receive public input and for authorization to transmit the CIE to the Department of Economic Opportunity for review as an annual update to the city's Comprehensive Plan.

Task 4.1 Impact Fee Ordinance

In order to expedite implementation of the impact fee program, the Impact Fee Ordinance will be prepared by the Consultant for review by the City Attorney during the 30-day DEO review process on the CIE, such that the Ordinance and the CIE can be adopted at the same City Commission meeting, and impact fees implemented 90 days thereafter.

Preparation of the City's Impact Fee Ordinance and recommendations (if any) to assure conformance to Chapter 163.31801 of the Florida Statutes.

The document will be delivered in digital (PDF) format for reproduction and digital distribution to the appropriate parties by the City staff.
